Guidance for full opening: schools, Updated 21 October 2020 <https://www.gov.uk/government/publications/actions-for-schools-during-the-coronavirus-outbreak/guidance-for-full-opening-schools>

Education and childcare settings: New National Restrictions from 5 November 2020 <https://www.gov.uk/guidance/education-and-childcare-settings-new-national-restrictions-from-5-november-2020>

Guidance on shielding and protecting people who are clinically extremely vulnerable from COVID-19 Updated 4 November 2020 <https://www.gov.uk/government/publications/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19/guidance-on-shielding-and-protecting-extremely-vulnerable-persons-from-covid-19>

New National Restrictions from 5 November <https://www.gov.uk/guidance/new-national-restrictions-from-5-november#education-school-college-and-university>

Schools must comply with health and safety law, which requires them to assess risks and put in place proportionate control measures. Schools should thoroughly review their health and safety risk assessments and draw up plans for the autumn term that address the risks identified using the system of controls. These are an adapted form of the system of protective measures that will be familiar from the summer term. Essential measures include:

- a requirement that people who are ill stay at home
- robust hand and respiratory hygiene
- enhanced cleaning arrangements
- active engagement with NHS Test and Trace
- formal consideration of how to reduce contacts and maximise distancing between those in school wherever possible and minimise the potential for contamination so far as is reasonably practicable

How contacts are reduced will depend on the school's circumstances and will (as much as possible) include:

- grouping children together
- avoiding contact between groups
- arranging classrooms with forward facing desks
- staff maintaining distance from pupils and other staff as much as possible

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

This assessment is to ensure the Health and Safety of the Summer Fields Staff, Pupils and Community and to reduce the risk to the lowest level practicable by following the Governments guidelines

Further mitigation actions include –

Prevention

- 1) Minimise contact with individuals who are unwell by ensuring that those who have coronavirus (COVID-19) symptoms, or who have someone in their household who does, do not attend school.
- 2) Where recommended, use of face coverings in schools.
- 3) Clean hands thoroughly more often than usual.
- 4) Ensure good respiratory hygiene by promoting the 'catch it, bin it, kill it' approach.
- 5) Introduce enhanced cleaning, including cleaning frequently touched surfaces often, using standard products such as detergents and bleach.
- 6) Minimise contact between individuals and maintain social distancing wherever possible.
- 7) Where necessary, wear appropriate personal protective equipment (PPE).

Numbers 1 to 5 must be in place in all schools, all the time.

Number 6 must be properly considered and schools must put in place measures that suit their particular circumstances.

Number 7 applies in specific circumstances.

Response to any infection

- 8) Engage with the NHS Test and Trace process.
- 9) Manage confirmed cases of coronavirus (COVID-19) amongst the school community.
- 10) Contain any outbreak by following local health protection team advice.

Numbers 8 to 10 must be followed in every case where they are relevant.

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

Part A Identified Hazards		Who may be harmed?					Risk Assessment		Risk Rating – see matrix below	Required controls	Are Controls implemented ?	
Description	Pupils	SF Staff	Authorised visitors	Contractors	School Reputation	Probability	Severity			Yes	No	
<p>1. Covid-19 – General</p> <p>Staff, Pupils, Visitors and contractors (particular attention will be given to those classed as vulnerable)</p> <p>How COVID-19 is spread:</p> <p>From what we know about other coronaviruses, spread of COVID-19 is most likely to happen when there is close contact (2 metres or less) with an infected person. It is likely that the risk increases the longer someone has close contact with an infected person. Droplets produced when an infected person coughs or sneezes containing the virus are the main means of transmission.</p> <p>There are two main routes by which people can spread COVID-19:</p> <ul style="list-style-type: none"> • Infection can be spread to people who are nearby (within 2 metres) such that droplets could be inhaled into the lungs. • it is also possible that someone may become infected by touching a surface, object or the hand of an infected person that has been contaminated with respiratory secretions and then touching their own mouth, nose, or eyes (such as touching doorknob or shaking hands then touching own face) 	✓	✓	✓	✓	✓	2	5	10-Medium	<p>Staff, Pupils, Visitors or contractors must not come to the school if:</p> <ul style="list-style-type: none"> • they are feeling unwell • they have a persistent cough • they have a temperature • a member of their family is showing symptoms of Covid-19 <p>Summer Fields is reviewing and updating information on the school's website on a regular basis to keep abreast of the situation.</p> <p>Advice is being taken from the Government, Public Health England, DfE and other authorities.</p> <p>The following measures are in place to reduce the risk to staff and Pupils, including:</p> <ul style="list-style-type: none"> • Advice on regular and thorough handwashing for all staff and boys; • Provision of soap and hand sanitiser; • Increased signage to encourage people to wash their hands; • Provision of signage to emphasise key messages and the flow around the school • Regular information updates to all employees; • Requiring staff to report if they are unable to attend work with reasons why • Appropriate training on return to work 	✓

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

4.	<p>If a member of staff or the public with confirmed COVID-19 has recently been in Summer Fields</p>	✓	✓	✓	✓	✓	2	5	10-Medium	<p>Automatic closure of the workplace is not recommended and will only happen if PHE advise this is the safest action.</p> <p>Summer Fields will be contacted by the PHE local Health Protection Team to discuss the case, identify people who have been in contact with them and advise on any actions or precautions that should be taken.</p> <p>A risk assessment of each setting will be undertaken by the Health Protection Team with the lead responsible person. Advice on the management of staff and members of the public will be based on this assessment. The Health Protection Team will also be in contact with the case directly to advise on isolation and identifying other contacts and will be in touch with any contacts of the case to provide them with appropriate advice.</p> <p>Advice on cleaning of communal areas such as offices or toilets will be given by the Health Protection Team, until the advice is provided the area will be closed and isolated.</p> <p>If a confirmed case is identified in your workplace, the local Health Protection Team will provide the following people with advice. Anyone who has:</p> <ul style="list-style-type: none"> • been in close face-to-face or touching contact • been in conversation with the confirmed case or been coughed on for any length of time • cleaned up any bodily fluids of the confirmed case been part of a close friendship group or workgroup with the confirmed case • been living in the same household as a confirmed case <p>Summer Fields will immediately engage with the local Health Protection Team (HPT) who will carry out a rapid risk assessment.</p> <p>Summer Fields and HPT will identify and notify 'close contacts'. The School will send home those people</p>	✓		
----	---	---	---	---	---	---	---	---	-----------	--	---	--	--

Summer Fields - Covid-19

Risk Assessment

										<p>who have been in close contact with the affected child and they should self-isolate for 14 days.</p> <p>Close contact means:</p> <ul style="list-style-type: none"> • Direct close contacts (face to face contact with an infected individual for any length of time, within 1 metre) • Proximity contacts (extended close contact –within 1 to 2 metres for more than 15 minutes) • Travelling in a small vehicle, like a car or minibus, with an infected person <p>Contacts are not considered cases and if they are well, they are very unlikely to have spread the infection to others. If the person tests positive they will be subject to Test and Trace</p> <p>Any member of staff who has provided close contact care to someone with symptoms, while wearing PPE and all other members of staff or pupils who have been in close contact with that person with symptoms, if wearing a face covering, do not need to go home to self-isolate unless:</p> <ul style="list-style-type: none"> • The symptomatic person subsequently tests positive • They develop symptoms themselves (in which case, they should arrange to have a test) • They are requested to do so by NHS Test and Trace or the PHE advice service (or PHE local health protection team if escalated). <p>If someone with symptoms tests negative for COVID, then they should stay at home until they are recovered as usual from their illness but can safely return thereafter. The only exception to return following a negative test result is where an individual is separately identified as a close contact of a confirmed case when they will need to self-isolate for 14 days from the date of that contact.</p>

Summer Fields - Covid-19

Risk Assessment

5.	Hygiene protocols	✓	✓			✓	1	5	5-Low	<p>A number of mitigation/ control measures to reduce/ minimise the risk of spreading the infection will be in place as follows:</p> <ul style="list-style-type: none"> • All staff and boys – boarders and day – will have their temperature taken each morning on arrival at school via the new technology being installed which provides an instant reading. The medical centre (Hobson's) will be automatically alerted to any high temperatures. ✓ • Each boy will be expected to wash their hands very regularly for at least 20 seconds. ✓ • Pre-prep pupils will use classroom supplies of hand sanitiser when required. ✓ • Prep school pupils will be expected to bring a pocket-sized bottle of hand sanitiser that can be refilled for their personal use. They will be expected to carry it at all times. Refill stations will be available in school and the lodges. ✓ • Training of all the boys will take place from the start of (and throughout) the Michaelmas term on a variety of areas related to hygiene, social distancing and logistics. ✓ • Boys will wash their hands with soap and water on every occasion they enter the school buildings; before break snacks; before lunch; and after each visit to the loos. ✓ <p>Masks and Face coverings:</p> <ul style="list-style-type: none"> • Boys and staff will be allowed to wear PPE masks and face coverings should they wish to do so, but this is not compulsory in educational settings. Any coverings must be disposable or if reusable cloth/fabric-types they should be plain coloured and should be washed daily either at home or in the lodges. ✓ <p>Where local restrictions apply:</p> <ul style="list-style-type: none"> • When an area moves to Local COVID Alert Level: high or very high, in settings where

Risk Assessment

										<p>home with them, and then wash their hands again before heading to their classroom.</p> <p>For the latest advice on facemasks/coverings, please click on the link:</p> <p>HSE - Face coverings and face masks</p> <p>In addition the school will adopt the following measures:</p> <ul style="list-style-type: none"> • Electric blow-dry hand driers will be switched off and paper towels introduced for the drying of hands across the school, including lodges. • Hand sanitisers and hygiene wipes will be available in every classroom and at every entrance and exit to school buildings. • Classrooms and equipment used by pupils will be cleaned and sanitised regularly during the day in addition to the usual morning and evening cleaning protocols already in place. Classrooms and furniture will be laid out with this in mind. • We will provide covered spaces outside to provide greater flexibility for boys to meet safely under cover. • Disposable cups and plates will be reintroduced in the lodges. <p>Keeping occupied spaces well ventilated:</p> <p>When the school is in operation, it is important to ensure it is well ventilated and a comfortable teaching environment is maintained.</p> <p>This can be achieved by a variety of measures including:</p> <ul style="list-style-type: none"> • mechanical ventilation systems – these should be adjusted to increase the ventilation rate and if possible, systems should be adjusted to full fresh air or, if not, then systems should be operated as normal as long as they are within a single room and supplemented by an outdoor air supply) 	<p>✓</p> <p>✓</p> <p>✓</p> <p>✓</p> <p>✓</p> <p>✓</p>	
--	--	--	--	--	--	--	--	--	--	---	---	--

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

										<ul style="list-style-type: none"> natural ventilation – opening windows (in cooler weather windows should be opened just enough to provide constant background ventilation, and opened more fully during breaks to purge the air in the space). Opening internal doors can also assist with creating a throughput of air natural ventilation – if necessary external opening doors may also be used (as long as they are not fire doors and where safe to do so) <p>Further advice on this can be found in Health and Safety Executive guidance on air conditioning and ventilation during the coronavirus outbreak and CIBSE coronavirus (COVID-19) advice.</p> <p>To balance the need for increased ventilation while maintaining a comfortable temperature, the following measures should also be used as appropriate:</p> <ul style="list-style-type: none"> opening high level windows in preference to low level to reduce draughts increasing the ventilation while spaces are unoccupied (e.g. between classes, during break and lunch, when a room is unused) providing flexibility to allow additional, suitable indoor clothing. rearranging furniture where possible to avoid direct drafts <p>Heating should be used as necessary to ensure comfort levels are maintained particularly in occupied spaces.</p>	✓	
6.	<p>Minimising contact between individuals and maintaining social distancing wherever possible</p> <p>Minimising contacts and mixing between people reduces transmission of coronavirus (COVID-19). This is important in all contexts and schools must consider how to implement this. Schools must do everything possible to minimise contacts and mixing</p>	✓	✓	✓	✓	✓	2	5	10-Medium	<p>How to group children</p> <ul style="list-style-type: none"> Summer Fields will maintain distinct groups or ‘bubbles’ that do not mix makes it quicker and easier in the event of a positive case to identify those who may need to self-isolate and keep that number as small as possible. All teachers and other staff can operate across different classes and year groups in order to 	✓	

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

										<ul style="list-style-type: none"> There will be staggered meal times (and time for cleaning surfaces in the dining hall between groups). A marquee can be used to help staff to distance from each other during break time. Use of staff rooms should be minimised. <p>Measures for arriving at and leaving school</p> <ul style="list-style-type: none"> Staggered starts or adjusting start and finish times to keep groups apart as they arrive and leave school. Staggered start and finish times should not reduce the amount of overall teaching time. The plan will be communicated to parents and remind them about the process that has been agreed for drop off and collection, including that gathering at the school gates and otherwise coming onto the site without an appointment is not allowed. <p>Other considerations</p> <ul style="list-style-type: none"> Supply teachers, peripatetic teachers and other temporary staff can move between schools. They should ensure they minimise contact and maintain as much distance as possible from other staff. 	✓	✓
7.	Hobson's	✓	✓			✓	2	5	10-Medium	<p>Hobson's will be staffed 24-hours a day as normal; the nursing team have a plentiful stock of PPE equipment and appropriate isolation facilities (should these be required).</p> <ul style="list-style-type: none"> Hobson's staff will automatically be alerted to any high temperatures recorded as pupils / staff arrive at school each morning. In a suspected case of Covid-19, the pupil / member of staff in question will be asked to wear a mask and will be isolated in the 	✓	✓

Risk Assessment

										<p>Hobson's isolation room which has been prepared and equipped in line with Public Health England guidance. Nurses will 'barrier nurse', wearing full PPE for any contact.</p> <ul style="list-style-type: none"> • Parents or guardians will immediately be asked to come to collect their child from school as soon as possible. The staff member will be sent home. • The pupil in question will be required to self-isolate for at least 10 days. • If a boy develops symptoms of the illness and needs to self-isolate, we will arrange for an antigen test to check for the presence of the virus. These tests are conducted by taking a swab of the inside of the nose and the back of the throat using a long cotton bud. We are exploring options through the NHS and private healthcare providers to ensure a quick turnaround of any test results. • In the event of a SUSPECTED case of Covid-19, staff who have helped the pupil in question – or pupils who have been in close contact with them - DO NOT need to self-isolate unless they develop symptoms themselves OR they have been requested to do so by NHS test and trace. • In the event of a CONFIRMED case of Covid-19, the pupil in question must not attend school. All the members of their 'bubble' may (as directed by the HPT) be required to self-isolate for 14 days and parents or guardians will immediately be asked to come to collect their child from school as soon as possible. 	✓	
8.	Expectant women at work and pregnancy		✓	✓	✓	✓	2	5	10-Medium	<p>According to the Royal College of Obstetricians and Gynaecologists, pregnant women do not appear to be more severely unwell if they develop COVID-19 than the general population.</p> <p>Some useful FAQ's are available from this link:</p>

Risk Assessment

										<p>identified through a letter from the NHS or from their GP, and may have been advised to shield in the past. Staff should talk to their employers about how they will be supported, including to work from home where possible, during the period of national restrictions.</p> <p>All other staff should continue to attend work, including those living in a household with someone who is clinically extremely vulnerable.</p> <p>This guidance is for everyone in England who has been identified as clinically extremely vulnerable. If you are in this group, you will previously have received a letter from the NHS or from your GP telling you this. You may have been advised to shield in the past.</p> <p>This guidance applies to clinically extremely vulnerable individuals only. Others living in a household with someone who is clinically extremely vulnerable are not advised to follow this guidance. They should instead continue to attend work and school in accordance with the general advice and regulations set out in the national restrictions guidance from 5 November.</p> <p>Children who are clinically extremely vulnerable</p> <p>More evidence has emerged that shows there is a very low risk of children becoming very unwell from coronavirus (COVID-19), even for children with existing health conditions. Most children originally identified as clinically extremely vulnerable no longer need to follow original shielding advice. Parents should be advised by Hobsons to speak to their child's GP or specialist clinician if they have not already done so, to understand whether their child should still be classed as clinically extremely vulnerable.</p> <p>Those children whose doctors have confirmed they are still clinically extremely vulnerable are advised not to attend education whilst the national restrictions are in place. Schools will need to make appropriate arrangements to enable them to continue their education at home.</p>	✓	

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

										<p>Children who live with someone who is clinically extremely vulnerable, but who are not clinically extremely vulnerable themselves, should still attend education.</p> <p>Parents of clinically extremely vulnerable children will be receiving a letter from the Government confirming this advice.</p> <p>Staff and Children who are clinically vulnerable</p> <p>Staff and children who are clinically vulnerable or have underlying health conditions but are not clinically extremely vulnerable, may continue to attend school in line with current guidance.</p> <p>Clinically vulnerable staff can attend school. While in school they should follow measures to minimise the risks of transmission. This includes taking particular care to observe good hand and respiratory hygiene, minimising contact and maintaining social</p> <p>Ideally, adults should maintain 2 metre distance from others, and where this is not possible avoid close face to face contact and minimise time spent within 1 metre of others. While the risk of transmission between young children and adults is likely to be low, adults should continue to take care to socially distance from other adults including older children and adolescents.</p> <p>People who live with those who are clinically extremely vulnerable or clinically vulnerable can attend the workplace unless advised otherwise by an individual letter from the NHS or a specialist doctor.</p>		
10.	<p>Return to Work</p> <p>Employees returning to work after furloughing/holidays/working from home will require re-training and knowledge of measures taken by the school to reduce the spread of COVID-19.</p>		✓		✓	✓	2	5	10-Medium	<ul style="list-style-type: none"> • Employee briefings completed. • Communicate COVID-19 policies and other measures to all employees. • Complete and record induction and 'return to work' forms with all returning staff. • Update staff who are returning, especially those who may be completing different workplace tasks or using new/additional substances. 	<p>✓</p> <p>✓</p> <p>✓</p> <p>✓</p>

Risk Assessment

	<p>assumed direct human-to-human contact or surface transmission.</p> <p>Based on what we know about similar viruses, the virus would be inactivated through thorough cooking and the disinfection of food preparation surfaces using appropriate methods (source: Food Standards Scotland, 24/03/2020).</p>									<p>eliminate, or reduce where possible. For example, food and drinks could be served as opposed to self-service. Where this is not possible, then cleaning regimes to be increased (e.g. regularly cleaning push buttons on drinks machines, water fountains etc.).</p> <ul style="list-style-type: none"> • Review and increase cleaning regimes for areas where food is prepared and consumed. ✓ • Use of Perspex screens to separate tables ✓ • There will be no refreshments/buffets for events or meetings. ✓ • Regularly remind staff and pupils of the need to wash their hands thoroughly before and after meals. ✓ • Ensure that staff responsible for preparing food are aware of and follow the latest Government guidance by providing regular refresher training (N.B. appropriate record keeping should be maintained for all training). ✓ • Holroyd Howe will not be using agency employees unless they are working exclusively for Summer Fields. This will be subject to ongoing review. ✓ • Meals will only be prepared for students and those staff on duty. ✓ • Temporary suspension of meals for all visiting teachers during Michaelmas term (until it is assessed as operationally practical and safe to extend food provision to all staff). ✓ 	✓	
14.	Meetings		✓		✓	✓	1	5	5-Low	All meetings that take place will be either on Zoom or in a space large enough to accommodate the social distancing guidelines	✓	
15.	Staff Facilities		✓			✓	1	5	5-Low	<p>The Teacher's common room should not have more than five people in there at any one time. This includes the teachers who have this space designated as their place of work.</p> <p>Staff are able to get fresh water and hot beverage's, but they must observe the social distancing rules</p>	✓	✓

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

										Staff should take their breaks in their designated working area.	✓									
										Visiting teachers should not enter main school classrooms, the common room or the dining areas.	✓									
16.	Visitors, Contractors, Parents, Potential spread of Coronavirus (COVID-19) between staff, pupils and others on site	✓	✓	✓	✓	✓	2	5	10-Medium	<p>Control measures:</p> <ul style="list-style-type: none"> • Undertake a review of persons expected to attend site and determine those that are non-essential (e.g. visitors, contractors, lettings etc.). • Inform non-essential persons that they must not attend the site until further notice. • Contractors to provide relevant insurance details, acknowledgement of school policies and a separate COVID-19 risk assessment. • All visitors to sign in at reception and to be provided with a site briefing containing relevant COVID-19 measures in operation by the host. • Each Department is responsible for recording visitor on the Inventory system to enable contact in the event of a person testing positive for COVID-19. • Review any lettings arranged during the current lockdown period and notify hirers of cancellation. • Parental visits to be confirmed with notification to relevant persons. • Only authorised Summer Fields employees may enter boarding lodges, unless emergency action is required. • Visitors are by pre-arranged appointment only. No Appointment – No Entry. • Dog walkers on the school grounds will be reminded of their responsibilities. 	✓	✓	✓	✓	✓	✓	✓	✓	✓	✓

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

										<ul style="list-style-type: none"> • A record should be kept of all visitors with sufficient detail to support rapid contact tracing if required by NHS Test & Trace. This will be via the Inventory system • Any recruitment process should have a flexible approach to interviews, with alternative options to face-to-face interviews offered where possible. • Given the lockdown impacts on an individual's ability to leave their house, and to travel, no visits from prospective parents will take place during this lockdown period. 	✓					
17.	<p>Transport and Travel</p> <p>Pupils on dedicated school services do not mix with the general public on those journeys and pupil groups will tend to be consistent under return to school measures. Therefore wider transmission risks are likely to be lower.</p> <p>Social distancing should still be put in place within vehicles wherever possible. This will help to both minimise disease transmission risks and maintain consistent reinforcement of public health messaging to children and staff, particularly at the point where they are leaving school and heading back into the community each day.</p>	✓	✓	✓		✓	2	5	10-Medium	<p>It is important, wherever it is possible, that:</p> <ul style="list-style-type: none"> • social distancing should be maximised within vehicles • children either sit with their 'bubble' on school transport, or with the same constant group of children each day • children should clean their hands before boarding transport and again on disembarking • additional cleaning of vehicles is put in place • organised queuing and boarding is put in place • through ventilation of fresh air (from outside the vehicle) is maximised, particularly through opening windows and ceiling vents <p>In accordance with advice from PHE, boys aged 11 and over should wear a face covering when travelling on dedicated transport. This does not apply to people who are exempt from wearing a face covering on public transport. More information on this can be found at the safer travel guidance for passengers.</p> <p>Travel in or out of local areas should be avoided, and parents, carers and staff should look to reduce the number of journeys they make - but travelling to deliver and access education is still permitted.</p>	✓	✓	✓	✓	✓	✓

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

									Staff, children and their parents and carers are encouraged to walk or cycle when travelling to and from school where this is possible, and to plan ahead and avoid busy times and routes on public transport. This will allow social distancing to be practised.	✓		
									Residential providers and boarding schools Residential providers should support students to reduce travel between home and educational accommodation unless absolutely necessary. Where students normally travel between their boarding school and home during term time for the purpose of education, this is allowed.	✓		
18.	Safeguarding Schools should consider revising their child protection policy (led by their Designated Safeguarding Lead) to reflect the return of more pupils. Schools must have regard to the statutory safeguarding guidance, keeping children safe in education. Designated safeguarding leads (and deputies) should be provided with more time, especially in the first few weeks of term, to help them provide support to staff and children regarding any new safeguarding and welfare concerns and the handling of referrals to children's social care and other agencies where these are appropriate, and agencies and services should prepare to work together to actively look for signs of harm. Communication with school nurses is important for safeguarding and supporting wellbeing, as they have continued virtual support to pupils who have not been in school.	✓				✓	1	5	5-Low	Has safeguarding policy been updated, regularly reviewed and shared? Is the DSL and ADSL easily contacted and their contact information known to all?	✓ ✓	

Summer Fields Health & Safety Manual

Summer Fields - Covid-19

Risk Assessment

Summary of risk – please review the risk measured, and the controls and then select and tick the appropriate risk summary statement

- A The assessment reveals that the potential risk to health from the activity is not currently significant
- B The assessment reveals that the potential risk to health from the activity is significant, however controls are in place which reduce the risk to acceptable levels
- C The assessment reveals that the potential risk to health from the activity is significant, despite the current controls which are in place. Further assessment and control measures must be considered to remove or reduce the risk to acceptable levels

Part B: Hazard Identification and Control Measures

Have any further significant hazards been identified? No

Further significant hazards	Who might be harmed?	Type of harm	Existing controls (Actions already taken to control the risk)	Further action / controls required (transfer to action plan at Part C below:
1.				
2.				
3.				
4.				

Part C: Action Plan:

No.	Action required	Person(s) to undertake action?	Priority	Projected time scale	Notes / comments	Date completed

Part D: Authorisation

Is any equipment used for this activity, subject to safety inspections?
 If YES, please list equipment to be checked and by whom:

Equipment	Date of the Last Inspection:	Next inspection due:	Inspection carried out by:

Have there been any incidents of persons being injured, since this risk assessment was last reviewed?
 If YES, how many?

Date:	Accident

Residual Risk-Level Calculator

Probability or Likelihood Rating/Criteria

- | | | |
|----------|-----------------|--|
| 1 | Highly unlikely | → No known history. Has potential to occur, but probably never will. |
| 2 | Unlikely | → Could eventually happen. |
| 3 | Possible | → Would be unusual but could happen occasionally. |
| 4 | Likely | → Probably will occur in time. |
| 5 | Very likely | → Probably certain to occur, if not immediately, then within a short period of time. |

Severity or Outcome Rating/Criteria

- | | | |
|----------|--------------------|--|
| 1 | Negligible injury | → No medical treatment or damage. |
| 2 | First Aid | → First aid level treatment, noticeable, minor cuts, bruises, bumps or damage to property. |
| 3 | Casualty treatment | → Minor (usually reversible) injury or illness resulting in days off work or minor damage to property. |
| 4 | Serious injury | → Severe injury or illness resulting in days off work, or major damage to property. |
| 5 | Fatality | → Death or loss of property/facility. |

Summer Fields - Covid-19

Control Hierarchy

The controls below, should be followed, in the order given, to reduce and/or remove any identified risks:

- A Elimination Is the activity or task really necessary?
- B Substitution Is there less hazardous alternatives which could be successfully used?
- C Isolation E.g. restrict access to the activity/task/area?
- D Engineering E.g. trolleys to move loads, or guards on machinery
- E Administration E.g. Training, signage, safe work procedures
- F PPE – Personal Protective Equipment E.g. gloves, safety glasses, masks

The **RESIDUAL RISK LEVEL SCORE** (between 1 & 25) is calculated by multiplying the **PROBABILITY RATING** (between 1 & 5) by the **SEVERITY RATING** (between 1 & 5) based upon the criteria above. This assumes that **all** the controls identified in the risk assessment above, together with any generic ones which are referred to, are already in place.

5	Probability or Likelihood score	5	10	15	20	25	1 to 6 = Low	This indicates a managed risk, usually requiring little action or response, simple control required.
		4	8	12	16	20		
3		3	6	9	12	15	8 to 15 = Medium	This indicates a medium risk to be controlled, requiring effective action or response. The level of severity may indicate that greater control is required. Consult H&S advisor to discuss control measures.
2		2	4	6	8	10		

Summer Fields - Covid-19

Risk Assessment

1						16 to 25 = High	This indicates a high risk and that full control and response is required. Specific and detailed management and impact of controls is necessary. Always consult Line Manger and Health & Safety adviser to discuss control measures.
	1	2	3	4	5		
	Severity or Outcome score						
	1	2	3	4	5		

Review of Risk Assessments should always take place:

- When time expired (six-monthly or annually)
- Whenever there is a change or operation, procedures or equipment
- Whenever there is a change of personnel involved in the process
- In the event of a near miss, incident, or accident
